

FOR IMMEDIATE RELEASE

Indecomm Rebrands Income Analyzer as IncomeGenius™

Change Coincides with New Version with Significant Advances in Platform

News Highlights:

- New IncomeGenius brand name and logo for Income Analyzer web-based platform
- New version key elements are preliminary income calculation, enhanced interface, and new workflow
- Enhancement improves ease of use for originators and saves time in underwriting

Edison, NJ – November 29, 2016 – Indecomm Global Services, a leader in business process outsourcing, learning, and technology solutions, announces the rebranding of its web-based income analysis platform as IncomeGenius. The rebranding reflects significant advances in its breakthrough technology for electronically reading and analyzing borrower income documents, and calculating qualifying income associated with the mortgage loan. New features include an automatic income calculation as soon as the user logs into the system, an enhanced interface, and a new streamlined workflow. These are productivity enhancers designed for sales and operations to identify the right income early in the loan process. IncomeGenius provides alerts and feedback based on current agency rules and best practices.

“IncomeGenius establishes a new standard for lending efficiency,” said Rajan Nair, CEO, Financial Services, Indecomm Global Services. “It offers an enhanced level of digitized income analysis, especially for self-employed borrower loans. It generates consistent and accurate results in a standardized and compliant fashion, allowing the user to immediately identify the probability of a successful loan application.”

IncomeGenius generates a comprehensive analysis of self-employed income applications and is robust in identifying risks to the loan. IncomeGenius is integrated with self-employment training through [Indecomm-Mortgage U](#). Together they represent a total self-employed borrower income calculation solution. IncomeGenius is available as a SaaS solution.
