St. Paul, MN – May 23, 2017 – Indecomm Global Services, a leading provider of business process as a service (BPaaS), software as a service (SaaS) technology, and learning products for the mortgage industry, will be exhibiting at the National Settlement Services Summit (NS3) at the San Antonio Marriott Rivercenter in San Antonio, Texas, June 7-9, 2017. Indecomm will be featuring its Post Closing and Recording solutions, which enable clients to achieve operational efficiencies through improved processing and reduction in errors. Indecomm is one of the largest document handling companies in the Post Closing and Recording industry. Indecomm has the ability to prepare and record all types of documents nationwide, including mortgages, assignments, lien releases, and modifications.

“With our experience, the rejection rate will be less, return time will be better, and we can customize our workflow to meet customer requirements,” said Rajan Nair, CEO, Financial

Services Division, Indecomm Global Services. “Our Post Closing and Recording Services provide clients with access to real time tracking of their document statuses.”

Indecomm executives will be demonstrating the IntelDoc Direct™ Recording Platform at the NS3. In addition to eRecording, IntelDoc Direct™ has a centralized knowledge base of county specific recording checklists, a fee calculator for accurate calculations, an impressive document turn time, as well as TRID compliance.

“The structure and flow of IntelDoc Direct™ manifests the experience of decades of Indecomm’s expertise,” Nair said. “It’s easy to use and intuitive. IntelDoc Direct™ provides comprehensive data at the start of the process so that users have accurate calculations and information for turn times that help increase efficiency.”

Indecomm also offers end to end solutions in a variety of title services, including property reports, tax research, and title typing.

“Indecomm’s title services provide flexibility, and serve as an extension of a client’s current team to attain a new level of operational efficiency,” Nair said. “We can customize our delivery model to streamline their workflow.”
