**Indecomm Global Services Presents Best Practices in Risk Management  
at MBA's Risk Management, QA & Fraud Prevention Forum 2015**

*Indecomm – Mortgage U SVP Alice Alvey Conducting Workshop*

**Highlights:**

- Indecomm executive Alice Alvey to conduct MBA Education workshop
- Risk factors in underwriting and best practices to be discussed
- Indecomm's proprietary, web-based risk management platform Kaizen™ featured

Edison, NJ (September 8, 2015) — Indecomm Global Services, a leader in business process outsourcing, learning, and technology solutions, announces that Indecomm – Mortgage U Senior Vice President Alice Alvey will be conducting the Manual Underwriting and Risk Analysis Workshop on September 9, 2015, the opening day of MBA's Risk Management, QA & Fraud Prevention Forum in Dallas, Texas. Indecomm is a host sponsor of the event. Its booth is number 30 where demonstrations of Indecomm's proprietary, web-based risk management platform Kaizen™ will take place.

“This event is designed to help the industry come to grips with the practical methods of meeting new regulations,” said Rajan Nair, CEO, Financial Services, Indecomm Global Services. “Alice's workshop offers a clear guide to best practices as it applies to manual underwriting and risk analysis.”

Alice continues the discussion saying, “This workshop provides an opportunity for underwriters at all levels to explore the latest thought processes in manual underwriting and risk analysis. Manual underwriting is still an important component of our business, even within automated underwriting decisions. Staying up to date on industry changes and trends helps mitigate risk.”

Minimizing compliance costs is a major industry theme. Indecomm’s Kaizen™ is a unique risk management tool that synthesizes data into reports which pinpoint loan level errors and patterns of defects by responsible parties and loan types. Kaizen™ categorizes root causes so that users can find and fix errors before they become systemic.

“Being compliant with regulatory changes is an enormous concern for everyone, especially mid to small lenders for whom the scope of regulatory changes is daunting,” Nair said. “Kaizen™ can manage multiple audits to meet a firm’s risk management and reporting needs. This type of functionality is essential in avoiding regulatory costs and reputational damage while maximizing process efficiencies.”

Kaizen™ audits and tracks loans in correspondent pre-purchase/diligence; pre-closing/funding QA; post-closing/pre-delivery and quality control; collateral review; regulatory compliance, and servicing. Standard and custom workflow reports are available. Customizable checklists can also be built into the system with investor overlays and references.
